ALIMENTACIÓN

FINE FOOD INDIA 2013. THE 3RD INTERNATIONAL FOOD, DRINKS, EQUIPMENT & TECHNOLOGY EXPO.

11 - 13 DESEMBER 2013. PABELLÓN 12 Y 12 A, PRAGATI MAIDAN. NEW DELHI. INDIA

Over 3 days, Fine Food India will showcase a diverse mix of features and attractions to inspire, educate and entertain you.

Leading food industry professionals convene to present and discuss the topics and issues that are at the forefront of the food industry today, and those which impact and shape the future of this rapidly evolving sector.

Forums include:

Chefs Forum

Panel discussions covering key trends and challenges relating to chefs in the hospitality sector including career development, developing future talent, etc.

Retail Forum

Panel discussions covering key trends and challenges of the food & drink retail industry in India

Exporters Forum

Opportunity for Indian companies to discuss the challenges and opportunities for exporting food & drink brands overseas

Importers Forum

Opportunity for importers of international brands and food groups to discuss the challenges and opportunities for importing food & drink brands into India

Restaurant Forum

Panel discussions covering key trends and challenges of the restaurant industry in India

Tasting Room

A series of educational tastings / master classes for invited buyers to sample the very best in product categories including olive oils, cheeses, bakery products, seafood, spices, coffee, tea, wines, beers, confectionery, deli & speciality foods. Top Indian and international chefs demonstrate their culinary skills and present mouth-watering creations. World famous Michelin Star Chefs present their best creations made up of quality ingredients and

diverse recipes influenced by world-class cuisines.

New Product Showcase

Latest products and innovations to be introduced into the Indian hospitality market.

Culinary Masterclass Theatre

Talented chefs from all over the country demonstrate their culinary skills by presenting delicious authentic cuisines. Along with demonstrations, expert Chefs conduct learning sessions on the know-hows of grilling, baking and frying. Opportunity to see leading international Michelin Star chefs and Indian chefs demonstrate and share their culinary skills and present mouth-watering creations.

Drinks Academy

A programme of tutored wine, spirit & beer tastings hosted by leading drinks professionals. Top Indian and International winemakers present their views on trends, challenges and insights into their roles.

ALIMENTARIA 2014. CENTRO DE NEGOCIOS INTERNACIONAL PARA TODOS LOS PROFESIONALES VINCULADOS CON LA INDUSTRIA ALIMENTARIA.

31 DE MARZO - 3 ABRIL 2014. RECINTO FERIAL GRAN VÍA - M2. L'HOSPITALET DE LLOBREGAT-BARCELONA

Alimentaria ofrece diferentes herramientas para optimizar la presencia en el certamen a través de acciones que facilitan en contacto comercial y propicia la celebración de encuentros bilaterales de cooperación, distribución e innovación entre expositores y compradores internacionales. Son los Proyectos Internacionales que buscan hacer más competitiva la agroindustria en el exterior y que abarcan prácticamente todos los continentes: América Latina, Asia, EE.UU. y Canadá, Centro y Este de Europa y Europa Occidental y Países de Oriente Medio. De este modo, el salón se convierte en plataforma de promoción para las empresas participantes y en un auténtico

centro de negocios a nivel internacional.

Food&Drink Business Meetings: encuentros de distribución entre empresas españolas y compradores extranjeros, proyecto liderado por FIAB (Federación Española de Industrias de la Alimentación y Bebidas) con el patrocinio del ICEX (Instituto Español de Comercio Exterior) y el MAGRAMA (Ministerio de Agricultura, Alimentación y Medio Ambiente).

Programa Hosted Buyers: El programa Hosted Buyers tiene el objetivo de asegurar a expositores y visitantes una acertada inversión de tiempo y recursos, tal y como exige el delicado clima económico actual. Este programa invita a compradores internacionales de alto nivel y con poder de decisión de compra a visitar Alimentaria beneficiándose de unas condiciones especiales, ofreciéndoles la oportunidad de rentabilizar su visita y sacar el máximo partido de su tiempo en el Salón.

Brokerage Event: El objetivo del programa es facilitar a empresas y centros de tecnología de Europa el contacto con potenciales socios internacionales para el establecimiento de acuerdos comerciales, transferencias de tecnología y convenios colaborativos. El programa está organizado por ACC1Ó, agencia catalana de apoyo a la competitividad, con el apoyo de Enterprise Europe Network, red europea de información y asistencia comercial y tecnológica.

European Business Meetings: La Cámara Oficial de Comercio, Industria y Navegación de Barcelona conjuntamente con Alimentaria organiza los "Encuentros Europeos". Estos encuentros permitirán a las empresas exportadoras españolas entrar en contacto con los responsables de compras de empresas importadoras europeas, con la finalidad de establecer relaciones profesionales y promover las exportaciones.

The Consumer Goods Forum: Alimentaria en su estrategia de cooperación con entidades de primera línea internacional que desarrollan programas punteros en el campo de la alimentación y, en aras de ofrecer más y mejores oportunidades de negocio, mantiene una estrecha colaboración con

CGF* (The Consumer Goods Forum), para compartir sinergias mediante la colaboración conjunta de acciones que redunden en beneficio del sector y posibiliten la creación de una plataforma internacional de negocio en el seno de nuestra feria.

FARMACIA Y COSMETICA

QBD IN PHARMA DEVELOPMENT 2014. 2ND INTERNATIONAL CONFERENCE WITH THE THEME "EXCELLENCE AND COMPLIANCE USING QBD".

24 - 25 FEBRUARY 2014. POWAI RAMADA HOTEL & CONVENTION CENTRE. MUMBAI, INDIA

We are delighted to announce our 2nd International conference on "QbD in Pharma Development" with the theme "Excellence and Compliance using QbD" scheduled to be held on February 24-25, 2014 in Ramada Powai Hotel and Convention Centre, Mumbai, India. This event is especially designed to discuss the implementation case studies, success stories and issues and challenges faced while implementing QbD principles at industry level.

The federal agencies have reiterated to build quality into the products during multi-phase product development life cycle and eventually, enhance product and/or process understanding, all using the rational and systematic approach of QbD. The key elements of QbD including the QTPP, CQAs, QRM, CMA, CPP and control strategy, as enumerated in the ICH guidelines, Q8, Q9, Q10 and Q11, are to be followed and implemented. The key regulatory agencies across the globe like US FDA, WHO, EMEA, Health Canada, MHA, TGA, PMDA and SFDA have adopted such ICH guidance per se. Besides being a federal requirement, QbD is fast emerging as a tangible tool to quicken time to reach market, reduce recalls and rejects, improve patient generic scepticism, minimise post-approval changes, streamline data flows across the entire life cycle of the drug, and above all, improve overall efficacy and cost-efficacy for patients and manufacturers alike.

This event will offer definitive benefits to the scientists from academia and industry working in the domains of Product Development, Process R

& D, Scale-up, Manufacturing, Quality Assurance, Global Regulatory Affairs, API, Excipients, Pharmaceutical Analysis and Technology Transfer. The speakers will articulate on all the pertinent areas of QbD Implementation including API, Analytical Development, Excipients and Formulation.

INFARMA 2014. ENCUESTRO EUROPEO DE FARMACIA

25 - 27 DE MARZO DE 2014. IFEMA, MADRID

El congreso Europeo de Oficina de Farmacia y Salon de Medicamentos y parafarmacia. INFARMA 2014 carácter Internacional. Se celebrará los días 25, 26 y 27 de marzo 2014.

Convocada y organizada conjuntamente por el Colegio oficial de farmacéuticos de Madrid el Colegio oficial de Farmacéuticos de Barcelona e INTERALIA, reunirá, una vez más, a todos los profesionales del sector farmacéuticos interesados en el presente y en el futuro de la Oficina de farmacia, los medicamentos y para farmacia.

En INFARMA Madrid 2014, estarán presentes todas las especialidades farmacéuticas, tanto las publicitarias como las no publicitarias, de forma que los visitantes profesionales podrán encontrar todos los productos y servicios que se ofrecen en las Oficinas de farmacia. Es cita obligada para todos los profesionales del sector farmacéutico.

INGENIERIA INDUSTRIAL

GULF INDUSTRY FAIR 2014. 4 - 6 FEBRUARY 2014. HILAL CONFERENCES & EXHIBITIONS (HCE)

The Gulf Industry Fair is the region's established annual B2B exhibition for the fast-growing industrial sector serving Bahrain, the Eastern Province of Saudi Arabia and the northern Gulf. Gulf Industry Fair provides the ideal promotional platform for companies showcasing industrial processes, manufacturing, downstream industries, products, distribution and indus-

trial services it's the essential show for you to be at.

Gulf Industry Fair 2013 brings together major players and experts in the industrial sector and features live demonstrations and the latest technology displays

Organized by Hilal Conferences & Exhibitions (HCE), the Fair provides a highly targeted opportunity for any company or organization marketing products or services aimed at the growing industrial sector of the region.

Gulf Industry Fair covers the key industrial segments including aluminium, machine tools, industrial equipment, automation, steel, energy, logistics and manufacturing. The Fair also provides a unique opportunity for the operators of industrial areas, ports and free zones to meet an interested market of decision makers in the manufacturing and distribution sectors.

RUSSIA POWER 2014. CONFERENCE & EXHIBITION 4 - 6 MARCH 2014. EXPOCENTRE, MOSCOW, RUSSIA

The Russia Power conference and exhibition, now in its 12th year returns to Moscow, alongside its sister event HydroVision Russia.

Russia Power represents an excellent opportunity to explore business opportunities and meet new partners and the industry's most influential decision makers in dynamic surroundings.

The three day event features a thought-provoking two-track conference programme and an active exhibition floor featuring the preeminent organizations from the Russian and International power sector.

Russia Power will address three key areas:

Modernization

Identifying solutions that will tackle the need for modernization and the extension of generation capacity.

Efficiency

Advocating ideas and opportunities that will enhance energy efficiency and accelerate decarbonisation of the power sector in Russia

Innovation

Highlighting the latest products and solutions that are enabling a secure and efficient power infrastructure.

METAV 2014. INTERNATIONAL FAIR FOR MANUFACTURING TECHNOLOGY AND AUTOMATION

11 – 14 MARCH 2014. DÜSSELDORF TRADE FAIR CENTRE. GERMANY
Industrial customers from Germany and Europe will meet in Düsseldorf from 11 to 15 March 2014 for the international fair for manufacturing technology and automation. For many European customers and manufacturers in the metalworking world, the METAV Düsseldorf is of central magnitude, having been established as the event in the branch for more than 30 years. Placing its main emphases on machine tools, manufacturing systems, precision tools, automated material flow, computer technology, industrial electronics, and parts and accessories, the METAV presents the whole spectrum of metalworking.

Exhibitors at the METAV benefit from its cogent exhibition concept which addresses decision-makers in the relevant markets and brings supply and demand sides together. The companies benefit from the VDW's long-standing trade fair know-how, and they use the METAV as an excellent investment platform from which to access the vast potential of the German market and those of the neighbouring countries.

More information: <http://www.metav.com/>

INGENIERIA QUIMICA

ESEF 2014. EUROPEAN SUBCONTRACTING AND ENGINEERING FAIR

11 – 14 MARCH. VNU EXHIBITIONS EUROPE. UTRECHT, NETHERLANDS

ESEF 2014 is the largest and most important exhibition in the Benelux area in the field of supply, subcontracting and engineering. In these hectic times, it is extremely efficient to meet up with your entire network and to meet new contacts in just 4 days. ESEF 2014 is promising a lot of activities.

Techni-Show

Techni-Show is held simultaneously with ESEF. Techni-Show is the largest and most important exhibition in the field of industrial production tech-

niques, processing and treatment of metals, appliances and tools. The last edition attracted more than 44,000 visitors.

Synergy between ESEF and Techni-Show

Key issue of the production sector: manufacture or outsource? The combination of ESEF and Techni-Show showcases all opportunities to the production sector..

More information: <http://www.esef.nl/en/Bezoeker.aspx>

MEDIOAMBIENTE

IERC 2014 .13TH INTERNATIONAL ELECTRONICS RECYCLING CONGRESS

22 – 24 JANUARY 2014. SALZBURGO CONGRESS. SALZBURGO, AUSTRIA.

The IERC has become THE international platform for discussion of the latest developments and challenges relating to worldwide WEEE. At this congress there will be representatives from the industry, authorities and academia. We expect over 500 industry leaders from all over the world.

The preliminary program includes sessions on:

Panel discussion: "Stop robbery of raw materials

How do countries and electronics manufacturing companies close the recycling loop?

Worldwide take back schemes, quotes and challenges of systems and OEMs E&E recycling standards, compliance and controls

Reports about strategic metals recycling (PGM, rare earth elements) and metal trading

How to recycle scraps containing hazardous elements

Design for recycling

Best available recycling technologies

Business opportunities in emerging markets

A large exhibition area is integrated into the conference facilities, where vendors can meet their clients. Cocktail receptions and a networking dinner create an excellent atmosphere to get in touch with business partners, friends and competitors.

The congress is also offering plant tours to leading recycling companies: EREMA Engineering Recycling Maschinen und Anlagen GmbH
Montantwerke Brixlegg AG
Müller-Guttenbrunn, Metran and MBA Polymers
Saubermacher Dienstleistungs AG

EWEA 2014 BARCELONA. EUROPE'S PREMIER WIND ENERGY EVENT

10 -13 MARCH 2014. FIRA DE BARCELONA GRAN VIA. HOSPITALET DE LLOBREGAT, BARCELONA

The last few years have not been kind to the European economy. But in 2014, the policy world will start to move forward, with a push towards new climate and energy targets prompting a renewed discussion on the value of energy in Europe. EWEA knows that the wind industry needs to be ready to reassert its importance and demonstrate its many societal and economic benefits.

This conference can play a big role in restoring the sector's confidence and in showing politicians that wind energy can make a valuable contribution to Europe's economic recovery. The four-day event will focus on communicating this message to policymakers, whilst equipping participants with practical tools to meet the demands of industrialisation.

Diversity in a single programme

The conference attracts engineers, consultants, senior managers, researchers, policymakers, academics, salespeople, financiers and technicians, who come from all over the world.

So we aim to develop a conference programme which is equally diverse. We are currently developing the session topics across several broad themes:

Financing and policy

European and international markets

Grids and integration

Hardware and supply chain

Resource assessment

Science and research

More information: <http://www.ewea.org/annual2014/conference/>

E-WORLD ENERGY & WATER 2014. THE MEETING PLACE OF THE INTERNATIONAL ENERGY INDUSTRY 11 – 13 FEBRUARY 2014. MESSE ESSEN - FERIA DE ESSEN. ESSEN, ALEMANIA.

The E-world energy & water will again become the meeting place of the international energy industry from 11 to 13 February 2014. The European leading fair of the energy and water industries with a flanking congress is being held at Messe Essen for the 14th time. After the record event last year with 22,160 visitors and 610 exhibitors for the first time, some 80% of the exhibition space for the coming event has already been booked. The E-world is also becoming increasingly interesting for industrial companies which are discovering the fair and have already submitted inquiries for 2014. In previous years, well-known companies from this sector, for example Siemens, General Electric, ABB, Bosch, Schneider Electric, Weidmüller, WAGO and Phoenix Contact, were present.

The entire hall 4 is being made available to the growing business field of "smart energy" for the second time. A trade forum supplements the highly promising exhibition area with panel discussions and specialised papers on current market issues.

More information: <http://www.e-world-essen.com/en/press-information/press-releases/single/view/2013/07/17/e-world-energy-water-2014-weiter-auf-erfolgs-kurs-bereits-jetzt-starker-buchungsstand/>

PETROQUIMICA

PETROENVIRONMENT 2014. 7th SYMPOSIUM AND EXHIBITION ON ENVIRONMENTAL PROGRESS IN THE PETROLEUM & PETROCHEMICAL INDUSTRIAL.

24 – 26 FEBRUARY 2014. SEEF CENTER IN AL KHOBAR, EASTERN PROVINCE OF SAUDI ARABIA

ETMA introduces PetroEnvironment, the first event in the Eastern Province of Saudi Arabia to unite both the upstream and downstream sectors to meet with environmental professionals to explore solutions to current and future challenges. Held under the auspices of the Environmental Technology and Management Association (ETMA), the event is the evolution of Enviro Arabia, which previously took place in the Kingdom of Bahrain in collabora-

tion with the Bahrain Society of Engineers.

Taking place at the Seef Center in Al Khobar, Eastern Province of Saudi Arabia 24 – 26 February 2014, the three day symposium and exhibition will provide a unique platform for environmental solution providers within the oil & gas and petrochemical industry to showcase their products and meet with end users.

This rare gathering offers participants the opportunity to meet with representatives from a range of major organisations, presenting an unmissable chance to become an officially registered provider at the time when the largest petroleum and petrochemical organisations in the region draw up their strategies for the coming year.

Attending PetroEnvironment 2014 gives buyers and vendors a unique platform to complete meaningful and long term transactions in just three days!

Subjects include:

Drilling and work over environmental challenges. Air Quality. Industrial & Hazardous Waste. Contaminated Site Characterization & Remediation. Water & Wastewater. Marine Protection. Terrestrial Ecology. Biodiversity. Environmental Health. Industrial Hygiene. Naturally Occurring Radioactive Materials. Environmental Impact Assessment. Environmental Management Systems. Clean Fuels. Climate Change /Carbon Management. Sustainability. Crisis Management & Emergency Response. Environmental Laws and Regulation

POLIMEROS

EURADH 2014. 10TH EUROPEAN ADHESION CONFERENCE

22 - 25 APRIL 2014. HOTEL MELIÁ ALICANTE. ALICANTE (SPAIN)

European Adhesion Conference - EURADH - is the paramount Conference of Adhesion in Europe, for scientists and engineers throughout the world that constitute the community working in research, development and applications of adhesion phenomena and technology.

EURADH 2014 is organized by first time in Spain, and will take place in Alicante under the steering of the joint scientific committee representing , the Sociedad de Adhesion - Grupo Iberoamericano de Adhesión (Spain), DECHEMA (Germany), the Société Française du Vide (France), the Society of Adhesion and Adhesives (United Kingdom) and the Associação Portuguesa de Adesão e Adesivos (Portugal)

Being the 10th conference of this series, EURADH 2014 will constitute a milestone for the consolidation of this international meeting of the scientific community. In addition to the conference sessions, and exhibition of R&D equipments and Companies booth is planned. Special sessions devoted to "Bioadhesion - Prevention and Stimulation" and "Adhesion in Cultural Heritage" will be organized and chaired by well-known scientists in these fields.

We now cordially invite scientists and engineers to propose papers for lectures and posters on all aspects of adhesion science and technology, adhesive formulation, surface treatment, equipment for adhesion and surface science, publishing, professional training etc.

The conference programme provides a balanced mix through the various fundamental themes and application areas of adhesion, highlighting the most promising directions of research and applications, while allowing for in-depth discussions.

The scenic location guarantees an environment of relaxed and open exchange for personal interaction. There will be plenty of time to foster contacts and numerous opportunities for networking with the major players in the field.

We look forward to meeting you in the beautiful city of Alicante, the Spanish city of the forever Spring.

More information: <http://www.sociedad-adhesion.org/Inicio/Home/>

INTERPLASTICA 2014. 17TH INTERNATIONAL TRADE FAIR PLASTICS AND RUBBER

28 – 31 JANUARY 2014. EXPOCENTRE MOSCOW. MOSCOW, RUSSIA.

Following Russia's accession to the WTO there is an urgent need for the

country to pursue industrial Modernisation. The Russian Government has therefore decided to introduce an industrial development programme that will also boost competitiveness. This programme will continue until 2020 and budgetary resources amounting to some 12.6 bn euro have been earmarked to support a wide range of industrial sectors. Investments will primarily be made in the plant and machinery sectors – in particular for construction and building material machinery and equipment – together with drive technology and plastics and rubber machinery.

Thematic Focus:

Machines and equipment for the .plastics and rubber industries. Machines and equipment for preparation and recycling. Machines and equipment for finishing, decorating, printing and marking. Machines and plant for processing. Post-processing machines. Welding machines. Tools. Peripheral equipment. Measuring, control and testing equipment. Parts and components. Raw materials and auxiliaries. Plastics and rubber products. Logistics. Storage technology for the plastics and rubber industries. Services for the plastics and rubber industries.

More information: http://www.interplastica.de/cipp/md_ww/custom/pub/content,oid,39/lang,2/ticket,g_u_e_s_t/src,ip_home_2

QUIMICA ANALITICA

MOLECULES AND MATERIALS FOR ARTIFICIAL PHOTOSYNTHESIS.

06 – 09 FEBRAURY 2014. HOTEL FIESTA AMERICANA CONDESA. CANCUN, MEXICO

The replacement of fossil fuels by a clean and renewable energy source is one of the most urgent and challenging issues our society is facing today, which is why intense research is devoted to this topic recently. Nature has been using sunlight as the primary energy input to oxidize water and generate carbohydrates (a solar fuel) for over a billion years. Inspired, but not constrained, by nature, artificial systems can be designed to capture light and oxidize water and reduce protons or other organic compounds to generate useful chemical fuels. Significant progress has been made recently in artificial photosynthesis based on

molecular chemistry and material science. However, developments in these two areas have occurred more independently than what is perhaps desired. In the present meeting, we will bring together researchers in these two scientific communities to explore possible synergistic effects of “fusion” between molecular and materials systems.

The primary topics to be covered in our conference will include:

Fundamentals of light capturing and conversion.

Water oxidation catalysis.

Proton and CO₂ reduction catalysis.

Interfacing molecules and materials for photosynthesis.

Complete cells for the generation of solar fuels.

More information: <http://www.fusion-conferences.com/conference6.php>

8TH WORKSHOP ELLIPSOmetry (INITIATED BY THE ARBEITSKREIS ELLIPSOmetry (AKE) - PAUL DRUDE E. V.)

10 – 12 MARCH 2014. LEIBNIZ INSTITUTE OF POLYMER RESEARCH DRESDEN (IPF). GERMANY

It is our pleasure to invite you to the 8th Workshop Ellipsometry of the Paul Drude e. V., which will be held in the beautiful baroque city of Dresden. The conference takes place in the tradition of successful meetings held since 2000 in Stuttgart, Berlin, Zweibrücken, and Leipzig, where the workshop has become known as a platform for scientific exchange of experts and students in the field of ellipsometry and beyond.

Please be encouraged to present new advances in your field, to inspire discussion, interdisciplinarity and new developments in research as well as application.

Magneto-optics, metamaterials, chiral structures, and photonic crystals. Rough and structured surfaces

Electronic properties and correlated systems. Organic and biological materials. Photovoltaics, microelectronics, metrology, and industrial applications. Latest news, hard- and software.

More information: <http://www.ipfdd.de>

QUÍMICA DE FLUJO

FCS 2014. 4TH INTERNATIONAL CONFERENCE OF THE FLOW CHEMISTRY SOCIETY

18 - 19 FEBRUARY 2014. HESPERIA TOWER DE BARCELONA, HOSPITALET DE LLOBREGAT. BARCELONA.

The Flow Chemistry Society is proud to welcome you to their 4th European Conference. The Society aims to unite and represent those who are actively working on this rapidly developing field.

As the Society's main European meeting, it is dedicated to the integration of flow chemistry into everyday practice throughout the world by delivering the latest knowledge and making it available for the entire chemistry community. Society members may register at a reduced price.

The presentations will focus on hot topics such as Meso Flow Chemistry and Microfluidic Chemistry. New Directions in Flow Chemistry will also be covered.

Running alongside the conference will be an exhibition covering the latest technological advances and associated services within this field.

More Information: <http://selectbiosciences.com/conferences/index.aspx?conf=FCE2014>

QUIMICA INDUSTRIAL

WINTER PROCESS CHEMISTRY CONFERENCE. FOCUS SESSION ON CHEMICAL ENGINEERING

16 – 18 DESEMBER 2013. IPRD UNIVERSITY OF LEEDS. LEEDS UK

The speakers will discuss the latest issues in synthetic route design, development and optimisation, reactor design, work up and purification, crystallisation, process engineering, hazard studies, and quality and regulatory issues.

The presentations will be from either speakers within the chemical industry or academics with a strong link to industrial process development, so the material presented will be of particular relevance to all chemists and engineers in industry, as well as graduate students considering a career in industry.

More Information: <http://www.scientificupdate.co.uk/conferences/conferences-and-workshops.html>
