# *INFORMACIÓN GENERAL*

## **INFORMACION DE CURSOS, CONGRESOS, SIMPOSIUMS**

### **ANÁLISIS**

#### **Analytica China 2010**

**From 15 a 17 september 2010. Shanghai New International Expo Centre (SNIEC), China**

The 22nd International Trade Fair for Instrumental Analysis, Laboratory Technology and Biotechnology. There will be workshops on subjects such as "Separation Techniques and Spectrometry in Biological and Clinical Analysis" and "Metabolomic Approaches for Biotechnology and Life Sciences".

More information at: [www.analyticachina.com/](http://www.analyticachina.com/)

### **ENERGÍA EÓLICA**

#### **Husum WindEnergy**

**Feria líder internacional de Energía Eólica  
Del 21 al 25 de Septiembre de 2010 en Hamburg Messe, Husum, Alemania.**

Es el mayor y más exitoso evento internacional de la industria de la energía eólica. La exposición va acompañada asimismo de un Congreso del más alto nivel.

Se verán innovaciones, productos y servicios en donde 700 expositores de 35 países se reunirán a discutir sobre los temas centrales del sector.

Se presentarán productos, servicios y soluciones para satisfacer las crecientes necesidades de esta industria incipiente.

### **INDUSTRIA QUÍMICA**

#### **Logichem 2010**

**The 9th Annual European Bulk and Specialty Chemical Supply Chain Conference**

**20th - 22nd of April 2010, The Hilton HotelDusseldorf Germany**

LogiChem is now in its 9th year and is the chemical industry's annual supply chain management conference, each year attracting over **200 senior logistics** and supply chain executives from bulk and specialty chemical manufacturers. It is the only event that brings together all the key suppliers and logistics practitioners in Europe, so if your business is supply chain management in the chemicals in-

dustry, then this is the one event in your calendar that is an absolute must!

Topics like:

- **Improving forecasting** to rapidly respond to changing demand levels in an uncertain market
- **Driving** a financial supply chain to increase your competitive advantage and impact your bottom line
- **How will increased production capacity in the Middle East impact European markets?**
- **Optimising** supply chain performance through global collaboration
- The future of specialty chemicals: **examining key trends and exploring growth opportunities**
- Key strategies to **lower inventory** levels and increase cash flow

The 2010 edition of Logichem features 40 + prominent speakers from the world's largest chemical companies revealing exactly how you manage your supply chain in a tough economic environment.

### **INGENIERÍA**

#### **AchemAsia 2010**

**From 1-4 June 2010, Beijing, PR China.**

The eighth AchemAsia will take place in the International Exhibition-Congress on Chemical Engineering and Biotechnology has established itself as the flagship event for the chemical process industries in China and the whole of Asia. AchemAsia will be launched in a new location in what continues to be an interesting economic environment.

AchemAsia offers the global process industry an opportunity to acquire a prominent market position in the ever-expanding Asian markets, to forge new contacts and to present their cutting-edge developments.

### **INSTRUMENTACIÓN**

#### **Pittcon 2010**

**From February 28 to March 5, 2010, in Orlando, Florida, at the Orange County Convention Center, West Building.**

---

This talk will focus on how high-end analytical instrumentation has both advanced state-of-the art applications and also stimulated higher performance of much more widely available lower-end instrumentation. Selected examples will draw from synchrotrons, lasers, mass spectrometry, electron and optical microscopy, NMR spectroscopy, Raman spectroscopy, and robots.

More information: [www.pittcon.org](http://www.pittcon.org)

Delft University of Technology and the company DSM, both from the Netherlands, are responsible for the technical organization of the congress.

The topics of the conference held in English are: aerosol science and technology, nanoparticles, models and simulation of particulate systems, granulation, and science and engineering of particulate processes.

## **POWTECH 2010**

**Del 27 al 29 de abril de 2010, centro feria de Núremberg, Germany**

Vuelve a celebrarse POWTECH, Salón líder mundial para la Tecnología de los Procesos e Instrumentación. Como es tradición tiene lugar paralelamente TechnoPharm, Salón Internacional de Farmacia, Alimentación, Cosmética. Un estreno celebra el WCPT6, World Congress on Particle Technology, que comienza ya un día antes, el 26 de abril. La fase principal de los preparativos ya ha comenzado.

## **FUNDICIÓN Y METALURGIA**

### **GIFA, METEC, THERMPROCESS y NEWCAST**

**Del 28 de junio al 2 de julio de 2010, en Düsseldorf.**

Bajo el lema "El mundo luminoso de los metales", una vez más los temas de la fundición, la tecnología de fundición, metalurgia y la tecnología de proceso térmico será el foco de la atención mundial. Todas las cuatro ferias de tecnología se prestan especial atención a los temas actuales de reducción de CO<sub>2</sub> y eficiencia energética. Que volverá a ser acompañado por un programa de calidad superior con el apoyo de numerosos seminarios, congresos internacionales y ciclos de conferencias.

## **TECNOLOGÍA DE PARTÍCULAS**

### **WCPT6 2010**

**The World Congress on Particle Technology  
From 26–29 April 2010, Exhibition Centre Nuremberg,  
Nuremberg, Germany**

World Congress on Particle Technology (WCPT) includes the PARTEC Congress and takes place for the first time parallel to POWTECH and TechnoPharm. This world congress will concentrate and discuss the latest findings and experiences from all segments of particle technology, when over 1.500 scientists from all over the world compare their research findings on the four days of the event.

The aim of WCPT is not only to present scientific findings, but also to promote the exchange of views and meetings between the various disciplines and between universities and industry.
