ALIMENTACIÓN Y BIOQUÍMICA

XXIX SALÓN DE GOURMETS . FERIA INTERNACIONAL DE ALIMENTACION Y BEBIDAS DE CALIDAD

13, 14, 15 y 16 de abril de 2015. FERIA DE MADRID, IFEMA. MADRID
Salón de Gourmets es el mayor evento europeo dedicado en exclusiva a los productos delicatessen, el escaparate anual más importante de alimentos y bebidas de alta gama.

Profesionales procedentes de Estados Unidos, Australia, Japón, México, Singapur, China... mas una representación de suizos, franceses, holandeses, checos, daneses, finlandeses o belgas, otorgan a esta feria el carácter internacional que ostenta desde 1992, reconocimiento otorgado por la Secretaría de Estado para el Comercio. Personas y productos llegados de todos los puntos del planeta se encuentran en este evento de referencia de los alimentos y bebidas de calidad.

BTA. LA FERIA INTERNACIONAL DE MAQUINARIA, TECNOLOGÍA E INGREDIENTES PARA LA INDUSTRIA ALIMENTARIA

21 - 24 ABRIL 2015. RECINTO GRANVIA. BARCELONA

Bta. es la feria con la oferta más innovadora y diversa en maquinaria y tecnología para la industria alimentaria y se organiza en 3 salones: Tecnocárnica, Tecnoalimentaria e Ingretectno. Su celebración conjunta con HISPAC, el salón internacional del envase, la convierte en la mayor feria de tecnología para la alimentación que se celebrará en Europa en 2015. Acogerá a más de 500 empresas expositoras. En 2012, 519 marcas estuvieron presentes, de las cuales 263 procedían de 30 países diferentes. Al finalizar el salón, 9 de cada 10 expositores habían confirmado su participación en Bta. 2015.

FARMACIA Y COSMETICA

APAHA 2015. APHA'S ANNUAL MEETING AND EXPOSITION. 27 - 30 MARCH 2015. SAN DIEGO, CA EEUU.

The APhA Exposition is a one-of-a-kind marketplace to visit and explore with 150 exhibiting companies. APhA attendees meet face-to-face with industry leaders and organizational representatives as they demonstrate new products, discuss exciting new services, and answer your questions.

More information: <http://www.apha-meeting.org/index.cfm?do=cnt.page&pg=1014&cb=2012>

FCE PHARMA - FCE COSMETIQUE 2015. INTERNATIONAL EXHIBITION OF TECHNOLOGY FOR THE PHARMACEUTICAL INDUSTRY.

12 - 14 MAY 2015. TRANSAMERICA SPA CENTER. SAO PAULO, BRAZIL

FCE Pharma focuses on the production chain in the pharmaceutical sector, especially the phases of manufacture, supply and distribution of products and services.

FCE Pharma attracts a qualified public of professionals associated with the pharmaceutical industry, suppliers, distributors and dealers of the country. The ideal spot for business in the pharmaceutical industry offering a vision of the future, product innovations, equipment and services, all in one place.

INGENIERIA INDUSTRIAL

COLLISION REPAIR EXPO 2015. 16 - 18 APRIL 2015. MELBOURNE EXHIBITION CENTRE. MELBOURNE, AUSTRALIA

The Collision Repair Expo returns to Melbourne in 2015 with the nation's most comprehensive exhibition of body finishing materials, crash repair equipment and tools.

Hosted every two years by the Australian Automotive Aftermarket Association (AAAA), the 2015 Expo will be held at the Melbourne Exhibition Centre 16 - 18 April. The Collision Repair Expo is directed by a committee of collision repair executives representing key brands exhibiting at the Expo. This is a trade only show run by the industry for the industry.

Up to 55 top Australian and international brands will exhibit at Expo and the major corporate sponsor once again is AkzoNobel/Sikkens. Equipment demonstrations will be a highlight, including the return of Lowbake with their popular onsite spray booth featuring regular live and interactive demonstrations from the major refinish suppliers. The Collision Repair Expo will be co-located with the Auto Aftermarket Expo. Entry is free and visitors will be able to check out a combined total of about 400 exhibits over nearly five acres of display space.

ICEB 2015. THE INTERNATIONAL CONFERENCE ON EXTRUSION AND BENCHMARK. ALUMINIUM TWO THOUSAND CONGRESS.

12-16 MAY 2015. PALAZZO DEGLI AFFARI. FLORENCE, ITALY

After 8 editions, it has become a very important and irreplaceable meeting point for all the operators working in the Aluminium industry.

Highly qualified "Aluspecialist" from companies, universities and associations come from all over the world to present to a specialized and international audience the most innovative technologies and applications in the aluminium field.

The International Conference on Extrusion and Benchmark (ICEB) has become the biggest event in Europe related to the recent developments on Extrusion Technology and its analysis by FEM simulation.

The aim of the conference is to join together technical and scientific experts, to widespread their knowledge and to form an international commu-

nity for the discussion of state of the art, as well as future developments, in the field of extrusion and in its most powerful tool, the numerical simulation.

To analyse all the aspects of the Aluminium chain, to meet colleagues from around the world, to join together technical and scientific experts, to exchange ideas and advices and to give your own contribution to the growth of the aluminium industry and the improvement of technology. Customers and suppliers can improve their business and become stronger as an "aluminium community".

Aluminium unique properties such as flexibility, ductility, recyclability, corrosion resistance and compatibility with other materials, make this metal perfect for an infinite variety of uses.

Thanks to its endless and valuable features, aluminium is used in many industries to make millions of different products and is increasing its importance for the world economy. Ultra-light alloys on the other side are becoming ever more interesting for several critical applications. Aluminium and light alloys are fully recyclable, thus being the biggest "friends" of the environment.

For all these reasons, aluminium and light alloys are considered strategic materials for industry in the future!

Extrusion companies, Extruded Profiles Users, Anodizing and Coating companies, Foundry and Cast Houses, Billet DC casters, Press and Equipment Builders, Dies and Tools Makers, Academic and Industrial Researchers, Alloys specialists, Software Houses, Software Distributors, Suppliers of instruments, devices and products for extrusion industry, manufacturers of architectural frames for windows, curtain wall, manufacturers in automotive sector, etc.

Aluminium Two Thousand and ICEB congress will also appeal to aluminium distributors, architectural designers, and mechanical engineers - particularly those in the extrusion and casting industry. Financial investors will also be interested.

INGENIERIA Y BIOINGENIERIA

NFMT 2015. BUILDING OPERATION MANAGEMENT'S

10 - 12 MARCH 2015. BALTIMORE CONVENTION CENTER. MARYLAND USA

The National Facilities Management and Technology (NFMT) Conference and Expo is a Free three-day event that gives you customizable facilities management training, product discovery and unlimited networking. Your take-aways will be new best practices, operational strategies, tricks of the trade, new relationships, fresh ideas and innovative solutions that will help you manage your facilities more productively in 2015. It's all in one place, at one time. If you are in any way involved in facilities management, maintenance or operations, NFMT is for you.

EBSA 2015. 18TH ANNUAL MEETING OF THE EUROPEAN BIOSAFETY ASSOCIATION: ORCHESTRATING A (BIO)SAFE WORLD.

21 - 24 April 2015. AUSTRIA CENTER VIENNA. VIENNA AUSTRIA

The main theme of the conference being 'Orchestrating a biosafe world'. As part of the effort of the Conference Programme Working Group (CPWG) to establish an attractive scientific programme, you are invited to submit papers for presentation within the main conference. In particular speaker slots have been reserved for papers that fit with one of the following themes: Biosafety aspects of working with animals. Biosafety in clinical settings. Communicating risk Field to lab & hospital. The person presenting a paper selected for oral presentation will benefit from having the conference registration fee waived.

INGENIERIA QUÍMICA

AAPG 2015 ANNUAL CONVENTION AND EXHIBITION. EXPLORING THE SUMMIT OF PETROLEUM GEOSCIENCES.

31 MAY - 03 JUNE, 2015 | DENVER, COLORADO

The world's geosciences community meets at ACE:

Industry strength: As the globe's pre-eminent geosciences organization, AAPG is uniquely positioned to attract a focused audience of geoscience

professionals and leaders from around the world

Target audience: Approximately 8,500 geologists, geophysicists and engineers from around the world will be at ACE

Technical Content: Peer-selected oral and poster presentations attract industry experts who appreciate the strength of the ACE technical program International Appeal: On average, 1,350+ geoscientists from outside the U.S. attend ACE each year making it the perfect place to make global contacts

Updates:

Call for Abstracts now closed.

Exhibit space available. Sign up now. AAPG has chosen to return to the reemerging energy epicenter of Denver, Colorado next year making it a can't-miss event in 2015. Denver has consistently drawn some of the highest-recorded crowds for ACE, and preliminary signs indicate that the 2015 event won't disappoint. ACE is a world-class event, regularly attracting an average of 6,900 global attendees - geologists, geophysicists and engineers all looking for products and services to maximize their companies' reserves potential. The breadth and depth of the technical program is international in scope and appeals to multiple geosciences disciplines. ACE also boasts the International Pavilion, a place where exploration and investment professionals gather. It is the place to see, discuss and understand where our industry is headed.

77th EAGE CONFERENCE & EXHIBITION 2015. EARTH SCIENCE FOR ENERGY AND ENVIRONMENT

01 - 04 JUNE 2015. IFEMA, MADRID.

Society today, fed by the massive pool of knowledge and the speed of current communications, is exerting a healthy pressure on our scientific community to mitigate the dependence on fossil fuels and, with that, improve our environment.

Nevertheless, I feel obligated to ask myself two questions: What if efficient alternatives take longer than expected? What if fine-tuning of global climate models indicates more complex interactions between natural and man-made effects than currently accepted?.

MEDIO AMBIENTE

WORLD SUSTAINABLE ENERGY DAYS.

5 FEBRUARY - 01 MARCH 2015. STADTHALLE WELS.AUSTRIA.

Leading tradeshow on renewable energy and energy efficiency with annually 100,000 visitors and 1,600 exhibitors

25 - 26 February: Professional Visitors' Days

27 February - 01 March: General Public Days

The ÖÖ Energiesparverband, the energy agency of Upper Austria and one of Europe's largest energy advice and information providers, offers energy advice on a range of topics at its large stand in Hall 20. The ÖÖ Energiesparverband provides information and advice for private households, businesses and municipalities on energy efficiency, renewable energy, innovative energy technologies and financial support programmes. A special part of the stand is dedicated to energy-efficient lighting, where particularly LED lighting products and solutions are exhibited.

SI BIOENERGÍA - I SALÓN INTERNACIONAL DE BIOENERGÍA . 17 - 20 MARZO 2015.FERIA ZARAGOZA. ZARAGOZA

Diseñada para centralizar y canalizar las necesidades y expectativas del sector, SI Bioenergía nace con el objetivo de fomentar el negocio, el desarrollo y la innovación en el sector de la bioenergía. Sin duda, el mejor escaparate para posicionar las marcas y los productos entre los profesionales y, por qué no, ante el consumidor final, además de una valiosa herramienta para fomentar una imagen positiva del sector. Un proyecto amplio que tiene en la feria el punto de encuentro ideal y su motor, que crea oportunidades para el conjunto del sector.

Se trata de una destacada convocatoria profesional que creará sinergias entre ambos certámenes, teniendo en cuenta que FIGAN, feria líder del sector agropecuario, reúne a un mercado donde la bioenergía juega un papel

muy importante para la generación de calor en las instalaciones agroindustriales y en uso doméstico, así como en las instalaciones y plantas de biogas.

Esta feria ofrece un marco sectorial de primer nivel para la promoción de toda la tecnología y soluciones para un sector en expansión que crea una importante actividad económica y genera grandes oportunidades de negocio, centradas en el ahorro de los consumidores y la mejora del medio ambiente.

CEB@ CLEAN ENERGY BUILDING. 20 - 22 MAY 2015. STUTTGART TRADE FAIR CENTRE. GERMANY

Energy efficient buildings, regenerative energy production and technical building equipment - these are the three pillars of the CEB@.With a new name and slogan: "CEB@ CLEAN ENERGY BUILDING ...Think Future", the international trade fair and conference is not only freshening up its image in the economic hub of Stuttgart, but is expanding its role as the central industry meeting point and driving force for resource efficiency, decentralization and healthy living standards by uniting renewable energies with building technology.

Innovative themes such as storage technologies, efficient lighting and green energy services will accompany the three core topics. Some of the key services covered include energy management, financing and insurance.

Several conferences, symposiums and workshops featuring internationally renowned speakers will round off the program of the CEB@. Use this opportunity to take advantage of this optimal platform to gather qualified and innovative information on future oriented trends. A solid network of supporters from the political, economic and scientific arenas presents the ideal starting point for effective high level networking.

PLASTICOS Y POLÍMEROS

PLAST 2015. INTERNATIONAL EXHIBITION FOR PLASTICS AND RUBBERS INDUSTRIES.

5 - 9 MAY 2015. FIERA MILANO. MILAN ITALY

PLAST, held in Milan every three years, is one of the most important exhibitions for plastics and rubber industry worldwide.

The whole range of products is represented in PLAST exhibits areas:

Injection moulding, extrusion, blow moulding, thermoforming and welding machines. machines for foam, reactive and reinforced resins molds and dies, laboratory control and test equipment, ancillary equipment for plastics and rubber processing machines for secondary processing, finishing, decorating, marking and plastics packaging, as downstream equipment machines and equipment for the plastics and rubber recovery and recycling raw materials, acrylics, polyamides, polyolefinics, styrenes, vinyls, thermoplastic polyesters, thermosets, fluoropolymers, elastomers, pigments, colourants, masterbatches, fillers, reinforcements, additives, process auxiliaries and other plastics secondary and regenerated raw materials, R PET R PE, R PP, ABS R, R PVC, regenerated elastomers, composites, plastic and rubber alloys and other materials semi-finished and finished products, household, electrical, electronic, industrial and agricultural applications and other plastics and rubber applications and processes product design, manufacturing and reconstruction services and other services for the plastics and rubber industry.

QUÍMICA ANALÍTICA

4TH INTERNATIONAL CONFERENCE ON BIO-SENSING TECHNOLOGY.

10 - 13 MAY 2015. SHERATON LISBOA HOTEL & SPA. LISBON, PORTUGAL

Bio-sensing technologies are of increasing importance in healthcare, agri-food, environmental and security sectors, and this is reflected in the continued growth of global markets for such technologies. This two and a half day Conference will provide a forum for accessing to the most up-to-date and authoritative knowledge from both commercial and academic worlds, sharing best practice in the field as well as learning about case studies of successfully integrated bio-

sensing technologies. The meeting will provide an opportunity to highlight recent developments and to identify emerging and future areas of growth in this exciting field.

Following the success of the first 3 conferences, the 4th International Conference on Bio-Sensing Technology will continue to bring together leaders from industry and academia to exchange and share their experiences, present research results, explore collaborations and to spark new ideas, with the aim of developing new projects and exploiting new technology for bio-sensing applications.

The conference will include:

Presentations from leading specialists highlighting new opportunities in bio-sensing technologies. An opportunity to share best practice in the integration of technologies for bio-sensing. An exhibition of leading-edge, commercial technology. A poster forum for unveiling new research ideas and concepts. Networking opportunities A strong industry focus with companies presenting their technologies.

More Information: <http://www.biosensingconference.com/>

PITTCON'2015 CONFERENCE & EXPO.

8 - 12 MARCH, 2015. ERNEST N. MORIAL CONVENTION CENTER. NEW ORLEANS, LA USA

Science is a dynamic and constantly evolving discipline. Every day, all over the world, scientists are making new discoveries; formulating new medi-

nes to enhance the quality of life and solving global environmental, energy and food related challenges.

Additionally, to keep pace with advancements, leading companies are continually developing new equipment, software, and services to help make laboratories operate more effectively and efficiently. Pittcon, a vital resource for knowledge, happens yearly to help keep you informed of, connected to and up-to-date on these significant ongoing findings and new instrumentation in areas such as, but not limited to:

"What did you enjoy most about Pittcon?"

"Meeting a wide variety of people, discussing technology and the seminar on cancer nanotechnology."

"Ability to network, short courses, and becoming aware of companies/brands/products of which I wasn't previously aware."

"Seeing presentations from my peers/colleagues/collaborators was very exciting, especially those from Europe. Pittcon is truly the hub of analytical chemistry and it brings lots of brilliant people together."

Pittcon 2014 Conferees

Life Sciences. Environmental Science. Food Science. Drug Discovery. Fuels & Energy. Nanotechnology. Water & Wastewater. Agriculture.

NOVEDADES TÉCNICAS

LINEALES REFRIGERADOS DE TEMPERATURA MEDIA CON SISTEMA HÍBRIDO R-404A/CO₂, SE RECONVIERTEN A LA REFRIGERACIÓN MÁS SOSTENIBLE OPTEON® XP40 DE DUPONT EN UN SUPERMERCADO ITALIANO

En un proyecto piloto, en julio de 2014, ingenieros italianos de la contratista CREA SpA, de Milán, han convertido en un supermercado de Milán el lineal de temperatura media (MT) de refrigeración en un sistema híbrido R-404A/CO₂ con Opteon® XP40 (R-449A) de DuPont. En comparación con el R-404A, este nuevo refrigerante, con su valor GWP de 1397,

tiene evidentemente un potencial menor de calentamiento global y forma parte de la cada vez mayor gama de refrigerantes con bajo potencial de calentamiento atmosférico de la compañía. Puede reemplazar al R-404A y R-507A, que se utilizan en la actualidad para usos comerciales e industriales y sistemas de expansión directa de baja temperatura, tanto en nuevos equipos como en la reconversión de sistemas ya existentes.

El pack compresor de refrigeración MT del sistema híbrido R-404A/CO₂ consta de seis compresores de tornillo con válvulas de expansión electrónicas Bitzer, que cubren 73 armarios

y 7 cámaras frigoríficas. Se entró en el software de control para preparar la reconversión de los datos para Opteon® XP40.
